

Miguel ZAVALA

Web Developer
Villahermosa Tab.

Hello my name is Miguel Zavala, I'm a javascript lover and I'm fascinate with the tech world, I've worked with technologies like React, NodeJS, React-Native, Webpack, Mongdb and all related with Javascript, In my last job I developed a Isomorphic Web App for Grupo Imagen.

Also I prefer made my own build with technologies like webpack and gulp, Using libraries from npm.

Experience

Developer

Grupo Imagen Multimedios

since March 2018

I worked as a web developer with Frameworks like Drupal and Symfony, In all this time within the enterprise I suggested begun to use technologies like React, Vue, Angular and Nodejs. Recently all mobile websites inside the company they've begun to migrate toward React and Nodejs. My most bigger achievement in this enterprise was make a progressive web app with all standards provided for Google like AMP. Always caring the first render time. A website made with this methodology is

<https://m.actitudfem.com/> .

Developer jr

Incubasoft

since March 2015

I worked as a frontend and backend developer with frameworks like Django, Bootstrap, JQuery, and materialize. Incubasoft was created under the merge of two startups which were Comunicat and AgaveSoft.

Education

Computer System Engineer

March 2012 - December 2013

Graduated from Instituto Tecnológico de Villahermosa.
