💼 Experience

Programmer
Grupo Imagen Multimedios
since March 2018
I worked as a web developer with Frameworks like Drupal and Symfony, In all this time within the enterprise I suggested begun to use tecnologies like React, Vue, Angular and Nodejs. Recently all mobile websites inside the company they've begun to migrate toward React and Nodejs. My most bigger achievement in this enterprise was make a progressive web app with all standards provided for Google like AMP. Always caring the first render time. A website made with this methodology is https://m.actitudfem.com/ .

Developer
Freelance
since January 2016
I worked as a Freenlance for a short period of time for many types of projects, from a simple website to a Android App with React Native, in all this time I learn more about the ecosystem in Javascript and the best practices for use Nodejs, Webpack, Server Side Rendering, Mongodb. Also I learn how work with a environment in Linux and mounted my own Server with Digital Ocean, using Letsencrypt for made the protocol https and nginx for serve my own Websites.

Developer jr
Incubasoft
since March 2015
I worked as a frontend and backend developer with frameworks like Django, Bootstrap, Jquery, and materialize. Incubasoft was created under the merge of two startups which were Comunicat and AgaveSoft.

🎓 Education

Computer System Engineer
Graduated from Instituto Tecnologico de Villahermosa.
